BODY GLOW COCOA BUTTER BODY SCRUB

60-Minutes \$89

90-Minutes \$139

Experience a thorough full-body scrub that features a unique scratch therapy session to stimulate endorphins, effectively reducing pain and inflammation. Your entire body will undergo dry exfoliation to remove dead skin cells, culminating in a luxurious massage motion using the Mob Spa's signature organic blend of Peruvian cocoa butter, shea butter, grapeseed oil, and coconut oil. An additional layer of exfoliation ensures optimal hydration, making this treatment perfect for addressing dry skin. Revel in a revitalizing experience that leaves your skin feeling deeply nourished and rejuvenated.

MOB SQUAD SPA ESCAPE

Body and Face Renewal

90-Minutes/ \$149

This is the ultimate rejuvenation for your skin and your body. Includes a 1 hour aromatherapy body therapy treatment with hot stones as an added feature, reflexology to the hands and feet, and a deep exfoliation ultra hydration facial is included.

We incorporate lymphatic dry brushing to help alleviate the feeling of toxicity and inflammation.

HOLISTIC HEALER SCRATCH THERAPY

Ready to feel better?

This treatment uses controlled, gentle scratching techniques across the skin and a variety of essential oils and hydrating creams to hydrate skin while holistically stimulating the nervous system responses and combatting pain, stress, anxiety, depression, and dry skin, and inflammation as an added benefit.

Key benefits include:

1. **Exfoliation & Skin Renewal** The light mechanical action helps slough off dead skin cells, leaving the skin healthier and smoother and better prepared to absorb topical moisturizers and oils.
 2. **Endorphin Release & Stress Relief:** Gentle stimulation of cutaneous nerves triggers the brain to release endorphins, the body's natural pain-relievers, which help alleviate chronic muscle soreness and physical discomfort and even boosting mood.
- **Stress & Anxiety Reduction:** Deeply relaxing tactile stimulation calms the central nervous system, lowering cortisol levels and promoting a state of deep mental relaxation.
 - **Enhanced Lymphatic Drainage:** Rhythmic, superficial strokes help stimulate the lymphatic system, encouraging the elimination of metabolic waste, reducing water retention, and decreasing localized swelling.
 - **Improved Circulation:** Light friction on the epidermis increases surface blood flow (microcirculation), bringing oxygenated blood and essential nutrients to the skin and underlying tissue.

The Teen Mob Deep Clean Facial is designed specifically for adolescent skin, addressing common concerns such as acne, excess oil, and impurities. This treatment begins with a thorough cleansing to remove dirt and debris, followed by gentle exfoliation to unclog pores and extractions to remove clogging. A targeted mask is applied to soothe irritation and promote healing.

Our experienced esthetician of over 15 years provides personalized advice on skincare routines tailored to individual needs. The facial culminates with a hydrating minty aloe, leaving the skin refreshed and revitalized. This service promotes a healthier complexion while educating teens on proper skincare habits. Does not include massage and parent must be present or fill out consent form.

The Red Light Skin Regeneration Facial

45-Minutes \$89

The Red Light Facial offers targeted treatment for skin tightening and acne reduction. This includes a citrus deep clean express facial under steam followed by a 20-minute red light therapy session, topped off with a hydration serum and SPF. Heal, renew, and tighten with this 45-minute facial that will leave your skin healthier.

Utilizing advanced light therapy technology, it stimulates collagen production and promotes cellular regeneration. This non-invasive procedure effectively reduces the appearance of fine lines, wrinkles, and blemishes, resulting in a smoother and clearer complexion.

The soothing nature of the treatment makes it suitable for all skin types. Experience rejuvenated skin with minimal downtime and lasting results. Ideal for those seeking a fresh and youthful appearance.

Micro-needling (Collagen Induction Therapy)

We include a deep cleanse, microdermabrasion, and lidocaine numbing. A minimally invasive cosmetic procedure with numbing included that uses sterile, ultra-fine needles to create controlled micro-injuries in the skin. This mechanical process triggers your body's natural wound-healing response, stimulating the rapid production of collagen and elastin to rebuild, tighten, and smooth out the skin surface. Because it relies on mechanical stimulation rather than heat or lasers, it is considered highly effective and safe for all skin tones. April has performed over 1,000 micro-needling procedures over the past 15 years. Experience matters.

Key Benefits and Target Concerns

Dermatologists and plastic surgeons utilize professional microneedling to dramatically improve several common cosmetic issues:

- **Acne and surgical scars:** Softens and flattens deep indentations, rolling scars, and boxcar pockmarks.
- **Aging and fine lines:** Significantly reduces the depth of static wrinkles, crow's feet, and smile lines.
- **Hyperpigmentation:** Fades sun damage, age spots, and uneven patches by accelerating cellular turnover.
- **Skin texture and pores:** Tightens loose, crepey skin and visually shrinks enlarged pores.
- **Stretch marks:** Strengthens broken dermal structures to fade the appearance of stretch marks on the body.

Healing Timeline

- **Days 1–2:** Redness, warmth, and mild swelling like a sunburn.
- **Days 3–5:** Redness fades to light pink; minor flaking may occur.
- **Weeks 2–4:** Pores look tighter and early skin smoothness appears.
- **Months 2–3:** Peak collagen maturity reveals true structural improvements in scars and wrinkles

Dermaplaning with Enzyme Peel Facial:

Quick Clean Dermaplaning/ 45-Minutes \$89 OR Ultimate: 75-Minutes/ \$159

No downtime/ Face may be pink to red day of procedure

**** April Singh has performed thousands of Dermaplaning Procedures**

Dermaplaning is a non-invasive cosmetic procedure where we use a sterile, medical-grade scalpel to gently scrape off the top layer of dead skin cells and fine facial hair. This treatment manually exfoliates the skin, instantly revealing a smoother, brighter complexion without the use of chemical acids or abrasive scrubs.

Key Benefits and Target Concerns

Dermaplaning is popular because it delivers immediate cosmetic results with zero downtime:

- Removes vellus hair: Eliminates fine facial hair ("peach fuzz") that can trap dirt and oil.
- Smooths skin texture: Instantly buffs away rough, flaky, or dry surface patches.
- Enhances product absorption: Allows serums and moisturizers to penetrate much deeper into the skin barrier.
- Flawless makeup application: Creates a perfectly smooth canvas, preventing foundation from looking cakey.
- Brightens dull skin: Promotes cellular turnover, helping to fade superficial hyperpigmentation and dullness.

Lactic Acid Peel

(For Dry, aging, dehydrated, sensitive skin)

\$99 / 40 Minutes

A lactic chemical peel is a gentle, superficial alpha-hydroxy acid (AHA) treatment derived from sour milk. It is widely considered the best "starter" chemical peel because it has a larger molecular size than glycolic acid, meaning it penetrates the skin more slowly and causes significantly less irritation. While it exfoliates dead surface skin cells, lactic acid is also a natural humectant. This means it simultaneously pulls moisture into the skin, making it highly effective for individuals with dry, dehydrated, or hyper-sensitive skin types.

What Changes to Expect

- Before Treatment: Dull tone, rough texture, clogged pores, or mild dark spots.
- Immediate After: Mild pinkness or tight feeling, similar to a light sun warmth.
- Days 1–3 After: Light flaking or dryness as old skin cells shed.
- Long-Term Results (After a full course of 3 monthly peels): Brighter complexion, softer fine lines, and even tone.

The NYC Peel

30-Minutes/ \$129 (AHA Peel)

Light-to-medium chemical peel designed to exfoliate dead skin cells, lighten hyperpigmentation (like melasma or dark acne scars), and treat active acne.

Main Benefits:

- Smoothes texture: Removes rough, flaky patches.
- Brightens tone: Fades dark spots and sun damage.
- Reduces fine lines: Plumps the skin over time by encouraging collagen production

Glycolic Chemical Peel

(For Hyperpigmentation, Acne, Deep Hydration)

\$99 / 40 Minutes

Core Skin Benefits

- **Texture Resurfacing:** Smooths out rough patches, fine lines, and minor surface imperfections.
- **Hyperpigmentation Reduction:** Lightens sun spots, age spots, and post-acne dark marks.
- **Acne & Pore Clarifying:** Loosens excess oil inside the hair follicles to help clear comedonal acne and shrink large pores.
- **Anti-Aging Support:** Higher strengths stimulate long-term collagen and elastin synthesis, improving skin firmness.
- **Deep Hydration:** As a natural humectant, it draws moisture to the skin surface, plumping the epidermal matrix.

Jessner Peel (Advanced)

40-Minutes/ \$129

Core Skin Benefits

- **Aggressive Acne Control:** Exceptionally effective at drying up overactive oil glands, clearing stubborn comedones, and flattening cystic breakouts on the face, chest, or back.
- **Melasma & Pigment Crushing:** Fades severe post-inflammatory hyperpigmentation (PIH), age spots, and uneven sun damage.
- **Textural Refinement:** Dramatically minimizes the appearance of large pores and dimpled, atrophic acne scars

Non-Surgical Facelift

- **No injectables, no chemicals**
- **Transforming results**

Microdermabrasion w/ High Frequency + Enzyme Peel Facial

75-minutes / \$159

Microdermabrasion offers excellent superficial skin rejuvenation with absolutely no downtime:

- **Brightens dull skin:** Removes accumulated dead skin cells to instantly restore a healthy glow.
- **Fades dark spots:** Lightens superficial age spots, sun damage, and minor post-acne marks over time.
- **Smooths fine lines:** Softens early, superficial wrinkles by encouraging fresh cell renewal.
- **Clears mild congestion:** The vacuum suction pulls oil, blackheads, and debris out of clogged pores.

High Frequency Portion that is included:

Anti-Aging & Circulation: Neon-infused wands warm the skin tissues locally, which rapidly boosts blood circulation and triggers natural collagen production.
